Retrieving objects

How to retrieve data from database

Queryset   Manager   Model

Example:

                    Queryset

Item   Model   Manager   Method   ⟹   Item.objects.all()
               ↓   ↓   ↓
              Item   objects   all()
